Host City: Aichi-Nagoya

Sports: 41 sports

Venues: 53 competition venues, 72 training venues

Concept:

- Athlete-Centered
- Using existing facilities
- Making full use of state-of-the-art technology
- Offer hospitality with traditions through interaction with citizens

#### 1.1. Emblem

The smooth curves describe the liveliness of sports.

The center line colored in purple, gold, and green inspires the image that people get together as one and go forward to the future by heading to a bright red sun, the symbol of the OCA. The purple is used as an image of iris which is the prefectural flower of Aichi. The gold describes the Kinshachi, the golden tiger-fish roof ornaments and the symbol of Nagoya Castle. And the green inspires the high environmental consciousness among people of Aichi-Nagoya fostered through EXPO 2005 Aichi, COP10, and the UNESCO World Conference on ESD. The emblem contains the initial letters of Asia, Aichi, and Nagoya. You can see "A" described by the purple curve and the center line and "N" in the purple and the gold.

## 1.2. Mascot

"HONOHO" was born from the fiery passion that dwells in the hearts of athletes, becoming one with Shachihoko, the guardian deity of Aichi-Nagoya.

The name "HONOHO" is derived from the word "Honoho," which is said to be the origin of the Japanese word meaning "flame," that comes from the image of fire rising high and burning brightly, resembling the shape of a rice ear ("ho" in Japanese). To make the name sound more friendly, we named it "HONOHO."

## 1.3. Other Information

For more information, please refer to the websites of Aichi-Nagoya Asian Games Organizing Committee (AINAGOC).

URL: <https://www.aichi-nagoya2026.org/en/>

## 2. Accreditation and Validation

AINAGOC will distribute the Accreditation Guide to Responsible Organisations in December 2025. The Accreditation system will be available from XX December 2025 to XX May 2026.

From July 2026 onwards, AINAGOC will produce and deliver the Pre-valid Asian Games Identity and Accreditation Card (PVC) to Responsible Organisations that have confirmed their Accreditation Status Report. Upon arrival in Japan, Games stakeholders will be required to validate their PVC at the Aichi Sky Expo accreditation validation desk or other accreditation facilities by presenting their valid identity documents. Once

validated, the PVC becomes the Asian Games Identity and Accreditation Card (AGIAC). The AGIAC entitles cardholders to access the venues and zones indicated on their card in order to perform their duties.

## 3. Validity Period of AGIAC

When accompanied by a valid passport (or equivalent document), PVC or AGIAC will serve as a visa waiver which allows multiple entries when applying for landing into Japan.

The visa waiver period is 50 days before the Opening Ceremony to 15 days after the Closing Ceremony. Between 31 July 2026 and 19 October 2026.

## 4. Transport

Athletes and team officials will be provided with transport on arrival and departure, for competitions, and for training. Services will be available for the designated locations. AINAGOC will allocate a specific number of dedicated vehicles to each NOC delegation for its exclusive use. Please refer to the Detailed Transport Services Plan (to be published later) for the 20th Asian Games Aichi-Nagoya 2026 for more details.

## 6. Competition Rules

The Weightlifting competition of the 20th Asian Games will be held as per the latest International Weightlifting Federation (IWF) Technical and Competition Rules & Regulations (TCRR).

Detailed information is available on the website of the IWF: [www.iwf.sport](http://www.iwf.sport)

In case of any disagreement in the interpretation of the IWF rules and regulations, the English version shall prevail. Any unforeseen circumstances not covered by the regulations and rules shall be resolved as follows:

Technical issues: Resolved in accordance with the IWF TCRR.

General issues: Resolved in accordance with the Olympic Council of Asia (OCA) Constitution and Rules.

## 7. Competition Format

The Weightlifting competition of the 20th Asian Games Aichi-Nagoya 2026 comprises eight (8) bodyweight categories for Men, and eight (8) for Women. The competition format for each category consists of a single phase, though it may be contested in multiple groups.

### Draw

After the Verification of Final Entry, a randomly generated lot number is drawn for each verified athlete. The athletes retain the lot number throughout the Event. The lot number defines the order of the weigh-in and the order of lifting during the course of the competition in the athlete's relevant group.

Bodyweight categories may be divided into two (2) or more groups by the Technical Delegate in accordance with the Entry Totals. If two (2) or more athletes have the same Entry Total, athletes may be allocated into different groups according to their lot number (e.g. athlete(s) with the lower lot number(s) go(es) to Group A; the athlete(s) with the higher lot number to Group B).

### Weigh-in

In prior to each competition, weigh-in is carried out to verify athletes' bodyweights. The weigh-in of each competition begins two (2) hours before the start of the group concerned. Weigh-in lasts for one (1) hour. If the correct weight is not reached before the end of weigh-in period, the athlete will be eliminated from the competition. The Technical Delegate or her representative must issue Official Communication to state the relevant athlete has been eliminated from the competition with the reason.

### Course of competition

Each competition consists of two parts: the Snatch and then the Clean & Jerk, with generally a ten-minute break between the two. The Jury, at its discretion and in consultation with the Technical Delegate may shorten or lengthen the break. An appropriate announcement to all relevant parties (athletes, Team Officials, Technical Officials, sport production, broadcast, spectators, etc.) must be made.

Each athlete may take three attempts at individually chosen weights in both the Snatch and the Clean & Jerk. The barbell is loaded progressively. The athlete requesting the lightest weight lifts first. The weight of the barbell must always be increased by multiple of one (1) kilogram increments. One minute is allocated to each athlete between the calling of his/her name and the beginning of the attempt. When an athlete attempts two lifts in succession, he/she is allowed two minutes for the succeeding attempt. Three referees adjudicate each lift and pass their decision, if accepted or not. The validity of the lift is decided on the majority by the referees. Each decision made by the referees is immediately analysed by the Jury, and they can decide to reverse it. After this, the decision is final and irrevocable. The rules of lifting and for the adjudication of attempts are the same for men and women.

Athletes having no valid lifts in the Snatch are eliminated from competition and cannot continue in the Clean & Jerk.

### Calling Order

The following four factors listed in priority must be considered when calling the athletes:

1. The weight of the barbell (lightest weight first)
2. The number of the attempt (lowest number first)
3. The sequence/order of the previous attempt(s) (the athlete who lifted earliest is first)
4. The start number of the athlete (lowest first)

### 20 kg Rule

The total weight of the starting attempts declared and actually taken in the Snatch and the Clean & Jerk must equal or exceed the weight of the verified Entry Total minus twenty (20) kg. The Jury will exclude the athlete from the competition if this rule is not adhered to. The above rule is commonly referred to as the “20 kg Rule”.

If the 20 kg Rule is not respected by the athlete / Team Official and goes unnoticed by all TOs and the athlete takes attempts, whether successful or not, and the error is noticed only after the execution of the lifts, any or all such Clean and Jerk attempts not in compliance with the Rule will be rendered as “No lift”.

### Tie Break Rules

If there is a tie, the factors to decide the classification of athletes in the Total are:

1. Best result – highest first; if identical, then:

2. Best Clean & Jerk result's attempt number – the Athlete who achieved the Total result earliest according to the Calling Order.

In the case of tie(s) in different group(s), the athlete(s) who competed earlier in time will be ranked higher regardless of the attempt number at which the athletes reached the relevant result.

#### Classification of Athletes

Gold, silver and bronze medals will be awarded only to the top three (3) weightlifters in the Total results in each bodyweight category.
